## OBJECTIVE

---

Dynamic and self-motivated undergraduate student seeking an entry-level opportunity in recruitment to leverage my strong communication skills, analytical mindset in contributing to business success. Motivated to contribute to a team-oriented environment and eager to develop skills in candidate sourcing, client management.

## TECHNOLOGIES

---

**Languages:** Java, HTML, CSS, SQL, JavaScript, Springboot, React.js, AI, ML, Python, AWS

**Tools:** GitHub, TensorFlow

**Skills:** Communication, Leadership, Adaptability.

## EXPERIENCE

---

### INTERNSHIP:

#### Java Full Stack Developer (Intern)-[Certificate](#)

Zidio Development | Feb-2025 – May -2025

Project: Enterprise Expense Management System

Developed a full-stack web application to manage enterprise-level expense tracking and approvals. Designed and implemented RESTful APIs using Spring Boot with JWT-based authentication and role-based access control. Built interactive and responsive frontend interfaces using React.js, integrating with backend services seamlessly.

## PROJECTS

---

#### Smarter Banking Chatfin Using Machine Learning - [Link](#)

The purpose of the project is to make any domain-specific website, in our case banking, more usable by integrating a chatbot that serves as an interface for customer inquiries about services.

**Tools Used:** Python, Machine Learning, Django Framework

#### Expense Enterprise Management System -[Link](#)

The Enterprise Expense Management System allows companies to track, manage, and analyze employee expenses. It includes role-based access, automated approvals, real-time analytics, and PDF reporting.

**Tools Used:** React.js, Springboot, SQL

#### Weather Dashboard-[Link](#)

creating a simple Weather Dashboard where users can search for a city and view weather details like temperature and condition.

**Tools used:** Html, CSS, Javascript

### **Assistant Chatbot using python and AI- [Link](#)**

An AI-powered assistant chatbot helps users apply for jobs more efficiently by guiding them through the application process, tailoring resumes, and preparing them for interviews.

**Tools used:** Python, AI

## **EDUCATION**

---

**St. Martin's Engineering College**

Dec 2021 -May

2025 BTECH in Artificial Intelligence and Machine Learning

CGPA:8.7

## **CERTIFICATIONS**

---

**Frontend Developer (Reactjs) - [HackerRank](#)**

**Issued by HackerRank | [March, 2025]**

Demonstrated proficiency in building dynamic, responsive user interfaces using React.js, including component architecture, hooks, state management, and performance optimization.

**AWS APAC's Solutions - [Link](#)**

**Issued by Forage| [April,2025]**

Designed and simple and scalable hosting architecture based on Elastic Beanstalk for a client experiencing significant growth and slow response times.

Described my proposed architecture in plain language ensuring my client understood how it works and how costs will be calculated for it.
